REPLACEMENT WINDOWS
Built for life[®]

Imagine the possibilities.

At Infinity from Marvin, we create windows and doors made from the strongest material in the replacement industry — Ultrex® fiberglass. When you combine Infinity's strength and timeless style with your imagination, the possibilities are endless.

Traditional style with a modern twist

The owners of this Seattle home sought to modernize their space while maintaining its character, unique style, and beauty.

Stylish window designs, hardware finishes that pop, and the thoughtful use of a Stone White interior and Ebony exterior provide just the right look.

Infinity Casement and Picture Windows in Stone White interior with Brass hardware

Design Tip

Brass hardware provides just the right contrast for both light and dark finishes, while maintaining the home's original charm.

Design Tip

The slim frame of Infinity's Inswing French Door in Ebony is beautifully complemented by traditional white trim and siding for a more modern feel.

Classic white windows accentuate natural light

These suburban Atlanta homeowners were intrigued by the idea of dark accents, but also wanted to maximize the natural light in their traditional home.

Choosing Infinity Stone White windows and doors let them keep an airy, light-filled atmosphere in this room. For contrast, they chose Oil Rubbed Bronze hardware for the door.

Design Tip

An Infinity Round Top Window is a focal point in a room and a beautiful way to bring more light into a space.

Design Tip

Make rooms and windows feel taller by hanging curtain rods close to the ceiling. For a more formal look, aim to drape the curtains long enough to lightly brush the floor.

Indoor-outdoor living without compromising energy efficiency

This Arizona homeowner – a writer – wanted to create an outdoor sanctuary in the middle of the home as a place to get inspiration.

Energy-efficiency is especially important in extreme climates like the desert, and it doesn't have to come at the expense of beauty and functionality. The homeowner chose Infinity doors and windows with a thin but effective glass coating to maximize efficiency.

Design Tip
 Replace a traditional sliding door with impressive glass panels that seamlessly connect the indoors and outdoors. The Infinity Bi-Fold Door effortlessly folds open and closed with just a fingertip.

Design Tip
 Add a screen to your Infinity patio doors to allow venting and airflow while keeping the bugs out.

Make the most of breathtaking views

This Ohio homeowner sought to take full advantage of stunning lake views that surround the home.

While other windows have bulky frames that restrict your view, the strength of Infinity's Ultrex® fiberglass material allows the frames to be slim and let in more beautiful outdoor scenery.

Design Tip

Infinity offers a wide variety of window shapes and sizes to be sure we can match your home's existing windows. Each Infinity window is made just for your home.

Design Tip

When choosing replacement windows and doors that will bring in more natural light, the width of the frame can make all the difference.

Breathe easy with a well-ventilated kitchen

Your kitchen is the heart of your home, so choosing the right windows and finishes is an important decision. It helps to have an expert to guide you.

Working closely with an Infinity partner in their area, these homeowners chose a mix of finishes that work together. The white hardware blends nicely with the window color, and the brushed chrome door hardware coordinates with the kitchen appliances.

Design Tip
 Opt for Infinity Casement or Awning Windows in a kitchen where windows may be difficult to reach. The effortless crank operation makes it a breeze to let in fresh air while cooking.

Design Tip
 More light makes small spaces like laundry rooms feel bigger. A local Infinity partner will help you choose windows that fit your spaces considering both functionality and beauty.

Enjoy the look of wood without the maintenance

Many homeowners love the look of wood windows, but not the maintenance — especially homes with a lot of windows.

With many windows to replace, this homeowner chose Bronze exterior with an EverWood® interior. Infinity's EverWood finish offers the traditional beauty of wood, while providing the strength benefits of Ultrex® fiberglass. It's virtually maintenance-free, and the stainable and paintable engineered wood grain finish can blend seamlessly with your existing decor and trim.

Design Tip

This home's light-colored brick exterior is perfectly accentuated by the Bronze Infinity windows.

Design Tip

Existing woodwork like beams and trim add character to your home, so you may want your windows to blend in. EverWood® looks, feels, and stains like real wood, making these replacement windows look original to the home.

Glide open new views and a fresh breeze

Sliding windows are often thought of as modern. Could they also be a good option for a more traditional home?

Working closely with their local Infinity partner, this homeowner chose slider windows throughout their traditional home for a perfectly blended look. And, of course, big, bright views.

Design tip

Your fireplace. That beautiful accent wall. That painting that inspires you. Bring in more daylight to show off the focal point that makes your room special.

Design Tip

When choosing new windows for your home, you're not limited to the style of your existing windows. From Infinity Picture Windows to Casement Windows to Sliders Windows, the possibilities are endless.

A full transformation for seamless living

This home in suburban Atlanta had a beautiful three-season porch, but the limited access from the family room made entertaining a challenge.

Replacing the existing windows with an Infinity four-panel Sliding Patio Door seamlessly connected these two spaces. This transformation brought the outdoors in and created the perfect place to host family and friends.

Design Tip

Stained wood furniture and brown accents add warmth to a black and white color scheme.

Design Tip

Ebony is a beautiful contrast to traditional white trim and siding, but it's also a bold choice for the interior of a home, particularly for modern spaces.

Make an impact with dark exterior windows

When choosing beautiful new windows that improve your home, it's important they stay beautiful. Infinity's innovative acrylic finishes resist scratches, fading, chipping, denting, and peeling to protect your home's curb appeal. Your windows will stay protected for as long as you own your home.

Design Tip

Unique window treatments like shutters can add another layer of style and privacy.

Design Tip

Whether overlooking a pool, play area, or your beautiful yard, windows matter. The slimmer the frame, the bigger and better the view.

Add light and style to a bathroom without sacrificing privacy

Let's be honest — no one really wants their neighbors to have a view into their home, especially for a space as private as a bathroom.

These homeowners in Billings, Montana opted for a combination of Infinity Awning and Polygon windows in custom-painted EverWood® finish for their bathroom. They customized their windows with a decorative glass for privacy, while still filling their space with light.

Design Tip
Wide rectangular windows combined with thin frames offer uninterrupted landscape views.

Design Tip
Like the strength and color options of fiberglass, but love the texture of wood? Choose Infinity's EverWood® option for a finish that looks, feels, paints, and stains like wood.

Boost curb appeal with intricate details

With so many style, size, color, and divided lite options from Infinity, it can be challenging to keep it all straight.

A local independent Infinity partner will work with you to determine your specific needs, develop a custom plan, and install your new Infinity windows.

Design Tip

Infinity Casement Windows feature a folding handle that tucks out of the way of most window treatments for a clean, finished look.

Design Tip

Decorative glass options can add privacy to any room, while maximizing natural light.

Modern, sleek, and elegant profiles that maximize daylight

This homeowner chose Infinity Picture Windows because of the extra slim profiles that offer bigger views.

The southwest homeowner chose to add grilles-between-the-glass to their Infinity windows and door to add architectural interest and a clean, modern decorative element.

Design Tip

You can add decorative grilles-between-the-glass to Infinity windows and doors without disrupting the view or getting in the way of cleaning your glass.

Design Tip

Dark exterior finishes like Ebony and Bronze enhance many styles of homes, but are particularly striking on Spanish and Mediterranean architecture.

Combine beauty with unbeatable strength

Strength. Beauty. Style. You don't have to choose between them with Infinity from Marvin replacement windows and doors.

The strength of our Ultrex® fiberglass offers slim profiles for more light and less bulk, and the proprietary finish ensures a lifetime of virtually maintenance-free beauty. With windows and doors designed just for you and installed by local experts, the only limit is your imagination.

Design Tip

Safety doesn't have to get in the way of beauty. The sleek footbolt locking system on Infinity Sliding Doors allows for additional security when the door is locked or vented.

Design Tip

Shutters can nicely frame your windows and add architectural interest. Consider wood shutters to add warmth and contrast to stone and brick exteriors.
